In that decision, the Board of Patent Appeals reversed an Examiner's rejection under § 103 on grounds that the rejection was based on improper hindsight reconstruction.

The present application claims priority upon an application from which the '556 application claims priority. And so, a decision in that case is believed to be relevant in the appeal of the present application.

Accordingly, Appellant wishes to bring to the attention of the Board, the recent favorable decision in Appellant's '556 application.

Respectfully submitted,
